

For a mid-level assessment of student outcomes of the general education program, the Collegiate Assessment of Academic Proficiency (CAAP) Examination, a standardized general education program assessment instrument is administered to students* who have completed at least 45 but not more than 75 semester hours with at least 30 hours completed at MBU. The CAAP Examination is administered annually and closely reflects the mission, goals, and objectives of the MBU general education program.

Data analyzed yearly from 2005-06 to 2014-15 indicate that MBU scores rank in the 40th to 50th percentile with the exceptions of mathematics, science, and reading, where the scores are in the upper 30th percentile. The scores have increased relative to the peer group over the last several years.

CAAP Results 2005-2006 through 2014-2015
