

The Student Strengths Inventory located in the Campus Labs Beacon module is administered to all MBU incoming freshmen during the fall semester. The survey consists of 49 questions that create eight non-cognitive factors, which are used to improve our predictive model for persistence and completion of our students. The factors are retention probability, academic success, academic self-efficacy, academic engagement, educational commitment, resiliency, campus engagement, and social comfort.

Student Strengths Inventory (SSI) from Campus Labs Beacon								
	Indicators							
Term	Retention Probability	Academic Success	Academic Self-Efficacy	Academic Engagement	Educational Commitment	Resiliency	Campus Engagement	Social Comfort
Mean	61.7	71.7	68.4	65.3	53.2	57.6	50.5	50.4
