

2023-2024 Demonstration of Ability to Benefit

On your FAFSA, you were asked about your high school completion status to help determine if you are ready to receive financial aid for education beyond high school. Federal regulations do not allow you to receive federal aid unless you have completed high school, and therefore demonstrate an ability to benefit from a postsecondary education.

You either skipped the question entirely or you indicated one of the following answers:

- None of the above
