2. What is the minimum GPA required for admission into the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.75

3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.75

4. Please provide any additional information about the information provided above:

Missouri Baptist University required a cumulative GPA of 2.75 for admission to the program and for completion until May 15, 2021, when the MO Department of Elementary and Secondary Education removed this as a requirement for recommendation for initial professional teacher certification. Traditional undergraduate students are required to submit an ACT or SAT score, although no minimum score is required. Non-traditional students are exempt from submitting an ACT or SAT score. All undergraduate candidates must take the MoGEA (basic skills test) for admission to the Teacher Education Program. Candidates who do not pass all sections of MoGEA (basic skills test score) on the first attempt may appeal to be admitted to the Teacher Education Program based on an ACT composite score of 20 or higher (or comparable SAT score) taken within the last five years.

## Postgraduate Requirements

1. Are there initial teacher certification programs at the postgraduate level?

- Yes  
 No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the postgraduate level. If no, leave the table below blank (or [clear responses already entered](#)) then click save at the bottom of the page.

## Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2020-21. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

- Yes  
 No

If yes, provide the next two responses. If no, leave them blank.

### Programs with student teaching models (most traditional programs)

Number of clock hours of supervised clinical experience required prior to student teaching

75

Number of clock hours required for student teaching

560

Are there programs in which candidates are the teacher of record?

- Yes  
 No

If yes, provide the next two responses. If no, leave them blank.

### Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)

Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom

Number of years required for teaching as the teacher of record in a classroom

### All Programs

Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)

6

[Optional tool](#) for automatically calculating full-time equivalent faculty in the system

Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)

26

Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

220

Number of students in supervised clinical experience during this academic year

178

**Please provide any additional information about or descriptions of the supervised clinical experiences:**

Students are required to complete a minimum of two formal supervised field experiences (totaling 75 clock hours) prior to student teaching. However, many of our education courses also include field experience components, although the number of hours and types of experiences required vary for each program.

# Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

**(§205(a)(1)(C)(ii))**

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

# Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- >> [Teachers Prepared by Academic Major](#)

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2020-21.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### What are CIP Codes?

No teachers prepared in academic year 2020-21

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2020-21. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

### [What are CIP Codes?](#)

Do participants earn a degree upon completion of the program?

# Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

## Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes  
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes  
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes  
 No  
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes  
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes  
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes  
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes  
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

All Missouri Baptist University (MBU) teacher candidates take the course EDPS 453/553: The Exceptional Child, in which they learn about a broad range of student learning differences and how to support them in the general education classroom. The course includes a 6-clock hour field experience in a special education classroom, execution of multiple case studies in which candidates plan classroom and instructional support for students with different disabilities, and a culminating project in which they design and implement a general education lesson plan with extensive accommodations and support for specific students with one or more disabilities. A 10-clock hour field experience with ELL students is included in the course, EDRD 423/523: Integrating Literacy in the Content Areas, which is required for all candidates seeking initial teacher certification. MBU requires all candidates seeking initial teacher certification to complete the course, EDUC 203: Teaching in a Diverse Society, which is required early in their program to make them aware of a broad range of student characteristics, while reflecting on their own diverse perspectives as well. A significant number of Missouri Baptist University's students come from low income, rural areas outside of the St. Louis area. Generally in the same semester they are taking EDUC 203:

Teaching in a Diverse Society, all students are also enrolled in EDCL 211: Teaching Field Experience I and are required to choose a pre-selected building site for a 30-hour placement which has been identified as representing a variety of diverse populations; sites are reselected on an annual basis to ensure continued diversity. All candidates also have the opportunity for additional field experience or student teaching at these sites. Education courses for initial certification each include objectives related to improving candidate proficiencies for working with diverse students and an assessment component to determine if the diversity objectives are being met.

## Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

## Report Progress on Last Year's Goal (2020-21)

1. Did your program prepare teachers in mathematics in 2020-21?

If no, leave remaining questions for 2020-21 blank (or [clear responses already entered](#)).

- Yes  
 No

2. Describe your goal.

Missouri Baptist University plans to add one new student to our mathematics program for the 2020-2021 academic year.

3. Did your program meet the goal?

- Yes  
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Missouri Baptist University began the 2019-2020 academic school year with 15 students enrolled in programs leading to Mathematics certification. Four students were recommended for certification, two students changed their major, and one student withdrew from the university before the 2020-2021 school year. While MBU still only had 15 students enrolled in programs leading to mathematics certification for the 2020-2021 school year, seven of these were new students.

## Review Current Year's Goal (2021-22)

7. Is your program preparing teachers in mathematics in 2021-22? If no, leave the next question blank.

- Yes  
 No

8. Describe your goal.

Missouri Baptist University plans to add one new student to our mathematics program for the 2021-2022 academic year.

- Yes  
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Missouri Baptist University began the 2019-2020 academic school year with 18 students enrolled in programs leading to science certification. Three students were recommended for certification, three students changed their major and five students withdrew from the university before the 2020-2021 school year. While MBU only had 11 students enrolled in programs leading to science certification for the 2020-2021 school year, four of these were new students.

## Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.  [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes  
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes  
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes  
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes  
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All teacher certification candidates take a course (EDUC 373: Technology and Instructional Media for undergraduate students, and EDUC 573: Applications of Technology as an Effective Tool in Teaching and Learning for post-baccalaureate students) that requires them to investigate and apply a variety of current technologies to enhance PK-12 teaching and learning. Candidates learn to identify and integrate varied, appropriate technologies both to enhance teacher productivity and professional practice and to apply the technologies into curriculum and instruction to enhance learning experiences for diverse students. This course, as well as multiple special education courses, also introduces students to components of universal design for learning (UDL). Throughout their program, candidates are required to integrate appropriate technology into lesson and unit plans that they develop, starting with EDUC 303 Methods of Teaching and Differentiated Instruction at the beginning of their program. The course ECTA 323: Curriculum, Assessment, and Data-based Decision Making is a requirement for candidates seeking initial teacher or library certification (with the exception of K-12 health, music, and PE majors, who have this content embedded in their content methods courses). This course provides an introduction to theoretical and practical applications of data-driven decision-making, assessments and curriculum planning for educators, including applying these concepts to personalized instruction for a broad range of PK-12 students. Various courses in initial certification programs require candidates to examine and analyze data from the Missouri Department of Elementary and Secondary Education (DESE) website in an effort to strengthen PK-12 teaching and learning. All candidates seeking teacher or library certification are required to participate in a culminating action research project during the student teaching

semester. This performance-based assessment requires candidates to determine their impact on learning for their students by selecting a focus, identifying research questions, collecting and analyzing data, and reporting results with informed action steps for future improvement to PK-12 instruction. MBU also offers a Master's degree in Educational Technology, for teachers who wish to further develop their educational technology expertise.

# Teacher Training

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

All Missouri Baptist University (MBU) teacher candidates take the course EDPS 453/553: The Exceptional Child, in which they learn about a broad range of student learning differences and how to support them in the general education classroom. The course includes a 6-clock hour field experience in a special education classroom, execution of multiple case studies in which candidates plan classroom and instructional support for students with different disabilities, and a culminating project in which they design and implement a general education lesson plan with extensive accommodations and support for specific students with one or more disabilities. Candidates also learn about the RTI / MTSS process for connecting students with tiered interventions and using monitoring procedures to measure student growth. Content regarding evidence-based practices with MTSS is purposefully integrated into several literacy courses taken by candidates in general education and special education programs. In addition, candidates learn about behavior and classroom management for children with special needs, including characteristics of children with a range of special needs, specific instructional support techniques, the importance of structures / routines, behavioral contracts, behavior modification, the role of commonly used programs such as PBIS and ABA, and setting appropriate behavioral expectations.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Every teacher candidate is introduced to IEPs in EDPS 453/553: The Exceptional Child and gains further exposure in other courses throughout the curriculum. As part of this work, candidates learn the components of IEPs, review multiple IEPs for students with a range of disabilities, and execute multiple case studies in which they act as various members of IEP teams. Candidates also complete a culminating assignment in which they write annual IEP goals for a specific K-12 student with disabilities, then tying those goals to both a general education lesson plan for that student's class and personalized instruction techniques tailored for that student.

#### c. Effectively teach students who are limited English proficient.

Teacher education candidates receive instruction on how to effectively teach students who are limited in English proficiency in courses including EDRD 423/523: Integration of Literacy in the Content Areas, ELED 453/553: Integrated Language Arts Concepts for PK-6, and EDRD 443/543: Analysis and Correction of Reading Disorders, in addition to various courses in the Special Education program. A 10-clock hour field experience with ELL students is included in EDRD 423/523: Integration of Literacy in the Content Area specifically to observe and work with students who are limited in English proficiency in a PK-12 classroom. Additionally, through both course content and assessments, students conduct a variety of real-life classroom and parent-related scenarios using multiple modalities. This course/field experience is required of all students seeking initial teacher certification.

### 2. Does your program prepare special education teachers?

- Yes  
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

Special education (SPED) candidates begin by taking the course EDPS 453/553: The Exceptional Child, in which they learn about a broad range of student learning differences and how to support them in the general education classroom. The course includes a 6-clock hour field experience in a special education classroom, execution of multiple case studies in which candidates plan classroom and instructional support for students with different disabilities, and a culminating project in which they design and implement a general education lesson plan with extensive accommodations and support for specific students with one or more disabilities. Candidates also learn about the RTI / MTSS process for connecting students with tiered interventions and using monitoring procedures to measure student growth. SPED candidate coursework continues with 15 hours of field experience in EDSP433 Methods of Teaching and Inclusion for Students with Cross-Categorical Disabilities, as well as an additional 15 hours for early childhood SPED candidates in the ECSP 403/503 Introduction to Early Childhood Special Ed and ECSP 413/513 Teaching Young Children with Disabilities courses. Throughout this coursework, candidates become competent in applying personalized assessment strategies for the improvement of student learning, as well as collaboration techniques for team teaching. Content regarding evidence-based practices with MTSS is purposefully integrated into several literacy courses taken by candidates in special education programs. In addition, candidates learn about behavior and classroom management for children with special needs, including characteristics of children with a range of special needs, specific instructional support techniques, the importance of structures / routines, behavioral contracts, behavior modification, the role of commonly used programs such as PBIS and ABA, and setting appropriate behavioral expectations. Finally, SPED candidates complete the course ECSP 423/523 Family Engagement and Partnership, which emphasizes strategies for developing strong and effective collaborative relationships specifically with families of students with special needs with an emphasis on collaboration, partnerships, and a family systems approach.

**b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.**

Special education (SPED) candidates are introduced to IEPs in EDPS 453/553: The Exceptional Child. As part of this work, candidates learn the components of IEPs, review multiple IEPs for students with a range of disabilities, and execute multiple case studies in which they act as various members of IEP teams. Candidates also complete a culminating assignment in which they write annual IEP goals for a specific K-12 student with disabilities, then tying those goals to a general education lesson plan for that student's class. As SPED candidates continue through their program, taking a variety of SPED methods courses and early literacy courses, they gain more extensive exposure and practice with components of IEPs. They become competent in applying assessment strategies for the improvement of student learning, including state-mandated assessments which may be utilized as part of the IEP process. Other related course topics include classroom management and social skills development, educational technology for learning disabled and behavior disordered students, collaboration techniques for team teaching, working with IEP teams and agencies, and effectively communicating and partnering with parents.

**c. Effectively teach students who are limited English proficient.**

Teacher education candidates receive instruction on how to effectively teach students who are limited in English proficiency in courses including EDRD 423/523: Integration of Literacy in the Content Areas, ELED 453/553: Integrated Language Arts Concepts for PK-6, and EDRD 443/543: Analysis and Correction of Reading Disorders, in addition to various courses in the Special Education program.
